Subject: Re: Quarterly Proactive Data Access Decision meeting Peder/Rene

Matt and I discussed and he's aligned to the Ph1/2 list of studies that are Early Oncology studies to be available… we do need to review the list quarterly because if there was a study that specifically could be supporting a registration/submission, that would be critical- and this could happen with Cell Therapy studies for example.

I do need to reeducate the ORDLT on the concept of this- because Leora/Vikram and others were very concerned about late stage trials and having those shared while submissions are going on… but they were not aware of prior discussions… so more to come on Late Stage list ...

Subject: RE: Quarterly Proactive Data Access Decision meeting Peder/Rene

@Iacona, Renee FYI, the AIThena steerco is tomorrow afternoon, so anything that can be concluded ahead of that will be extra valuable – for both shared understanding and rollout planning.
Thank you for leading the way! (y)
Kind Regards,
/P

Subject: Re: Quarterly Proactive Data Access Decision meeting Peder/Rene

Hi Renee,

Thank you for your guidance in this morning's '**Quarterly Approval Meeting**'.

Your input was hugely valuable in helping us refine the study approval approach - both in shifting to a more sustainable, forward-looking practice and in identifying areas where immediate feedback and approvals were possible.

Below is a brief summary of key points and next steps:

- **Setup 90:10 Open Collections:**
  - Approval for the creation of the 'Close Studies Collection' (> 6 months post DBL / PTAP studies) - Data Office to confirm immediate rollout with ODSAI Althena steerco
  - Approval for the creation of the 'Ongoing Studies Collection' (pending individual study approvals for inclusion - see next section)

- **Individual Study Approvals:**
  - **C1 - Recently Closed (< 6 months)**
    - General = We should be able to move to an active opt-out model for these studies - where our default position is to include in open collection
    - Latest information on study approvals below:

  - **C5 - Open Label Ph 1 & 2**
    - General = Renee & Matt Hellmann to meet this week & agree which can be shared / which are sensitive
    - Latest information on study approvals below

  - **C3/C4 - Closed Arms / Interim Cuts**
    - General = Presence of a dataset doesn't necessarily mean a cut has been reached as there might have been an IDMC
    - Latest information on study approvals below

  - **Other Categories**
    - General = Data Office continue to populate with as much info as possible, but one-by-one approval still needed
    - Latest information on study approvals below:

- **Next steps:**
  - Data Office - Send actions and comments to Renee for further review [Today]
  - Renee - Review Open Label studies with Matt when in Cambridge this week [This week]
  - Renee - Feedback any other approvals / rejections based on the list provided, so Data Office can action for ctDNA
  - Data Office - Proactive partnership data rights assessment - Stacy to finalise agreement with Alliance Management & legal framework
  - Data Office - For upcoming meetings send pre-read well in advance to allow Renee to reach out to leaders as needed
  - Renee / Data Office - Identify which studies can be accessed excluding OS data (DO explore proposal for sub-setting out OS information)

Many thanks,

Henry

10 Nov - Quarterly Proactive Data Access Decision.pptx

Opt-in Approval: Recently Closed (<6 months)

3

Category C1 - Recently Closed = Studies with DBL across all arms that was achieved <6 months ago, and so remain in the responsibility of the Delegate Data Owner / GPT to approve access

Category = C1	Study Code	Acronym	AZ Product Name	Prior GPT Decision?	Comments
C1: **Recently Closed (<6 months post DBL)** *Model:* **Opt-in**	D933AC00001	TOPAZ-1	Imfinzi	NA	*[10 Nov '25 – Renee]* = **Approved for inclusion**, reached milestones
	D5084C00007	SAVANNAH	Orpathys	Rejected – ctDNA	*[10 Nov '25 – Renee]* = **Approved for inclusion**, last info is that the FDA didn't accept for accelerated approval, but no follow up analyses requested *[Previous feedback]* Time Considerations – rejected because study is not 6 months from CSR
	D3615C00001	CAPItello-291	Truqap	NA	*[10 Nov '25 – Renee]* = **Approved for inclusion**, just had overall survival analysis in September 2025

Decision Needed:
Can we approve these studies for inclusion in the Oncology Ongoing Studies Collection?

11

Opt-in Approval: Open Label

22

Category C5 – Open Label = Phase 1 & 2 studies that have achieved FSI, but may or may not have achieved DBL, where participants & investigators are aware of the treatment assignment

Category = C5	Study Code	Acronym	AZ Product Name	Prior GPT Decision?	Comments
C5: **Open Label Ph1-2 not yet reaching DBL** *Model:* **Opt-in**	D7080C00001	ALAFOSS-01	AZD0022	NA	
	D8990C00001	FONTANA	AZD5335	NA	
	D8470C00001	CYCAD-1	AZD8421	NA	
	D8410C00001	CERTIS1	AZD9574	Approved - ctDNA	
	D5330C00004	<Link> (Study 4)	ceralasertib	Rejected – ctDNA	
	D926FC00001	TROPION Lung-04	Datroway	NA	*[Previous feedback]* - Deprioritized, as co-owned by Daiichi
	D926UC00001	TROPION-PanTumor03	Datroway	NA	*[Previous feedback]* - Deprioritized, as co-owned by Daiichi
	D967JC00001	Destiny-Breast07	Enhertu	NA	*[Previous feedback]* - Deprioritized, as co-owned by Daiichi
	D967LC00001	DESTINY-Gastric03	Enhertu	NA	*[Previous feedback]* - Deprioritized, as co-owned by Daiichi
	D967VC00001	DESTINY-PanTumor02	Enhertu	NA	*[Previous feedback]* - Deprioritized, as co-owned by Daiichi
	D967YC00001	DESTINY-Lung03	Enhertu	Approved – BMN	*[Previous feedback]* - Deprioritized, as co-owned by Daiichi
	D6185C00001	HUDSON	Imfinzi	Approved - ctDNA	
	D6186C00001	ORCHARD	*Not Documented*	Approved - ctDNA	*[10 Nov '25 – Renee]* = **Approved**, already been used by others
	D6900C00001	Bluestar	puxitatug samrotecan	NA	
	D7020C00001	ARTEMIDE-01	rilvegostomig	Approved - ctDNA	
	D9570C00001	<Link> (AZD7789)	sabestomig	NA	
	D9720C00001	PETRA	saruparib	Approved – BMN	
	D9720C00003	PETRANHA	saruparib	Approved - ctDNA	
	D9350C00001	EGRET	tilatamig samrotecan	NA	
	D7980C00003	<Link> (MEDI5752)	volrustomig	NA	
	D7986C00001	Gemini Gastric	volrustomig	NA	
	D7987C00001	GEMINI-HPB	volrustomig	NA	

12

Opt-in Approval: Closed Arms / Interim Cuts

8

Studies identified below can be inferred to have reached an interim cut / have a closed arm due to the presence of a recorded dataset location – however we are unable to directly identify the appropriate milestone date

Category = C3/4	Study Code	Acronym	AZ Product Name	Prior GPT Decision?	Comments
Likely C3/4: **Closed Arms / Interim Cuts** *(Suspected based on the known presence of a data location)* *Model:* **Opt-in**	D926XC00001	TROPION-Breast03	Datroway	NA	*[10 Nov '25 – Renee]* = **Rejected**, still ongoing so not available, IA Q2 '26
	D9670C00001	DESTINY-Breast06	Enhertu	NA	*[10 Nov '25 – Renee]* = **Approved**, passed first reporting milestone; however not allowed access to OS information (need to remove this)
	D419CC00002	HIMALAYA	Imfinzi	NA	
	D9311C00001	DUO-E	Lynparza	NA	
	D5160C00048	LAURA	Tagrisso	Rejected – ctDNA	
	D5162C00052	OSTARA	Tagrisso	Rejected – ctDNA	
	D5169C00001	FLAURA2	Tagrisso	Approved - ctDNA	
	D516AC00001	NeoADAURA	Tagrisso	Rejected – ctDNA	

13

Opt-in Approval: Fully Ongoing

6

Below studies are expected to be 'full ongoing' or live studies – given that data in Control Tower shows they have not yet reached the planned milestone dates set out for each study

Category = C6	Study Code	Acronym	AZ Product Name	Prior GPT Decision?	Comments
C6: **Fully Ongoing** *(Recorded study milestones suggest that these studies have not reached any interim cuts /closed arms)* *Model:* **Opt-in**	D9800C00001	CLARITY - PT01	AZD0901	NA	
	D9970C00001	PRIMROSE	AZD3470	NA	
	D516NC00001	TROPION-Lung 14	Datroway	NA	*[Previous feedback]* - Deprioritized, as co-owned by Daiichi
	D781PC00001	DESTINY BTC01	Enhertu	NA	*[Previous feedback]* - Deprioritized, as co-owned by Daiichi
	D967RC00001	DESTINY-Breast11	Enhertu	NA	*[Previous feedback]* - Deprioritized, as co-owned by Daiichi
	D361DC00001	CAPItello-292	Truqap	Rejected – ctDNA	*[Previous feedback]* - Pending Analysis - this study hasn't yet been analysed and therefore it is expected to bring risks

14

Opt-in Approval: NA

15

We were not able to identify any actual milestones for the below Studies in Control Tower – and so will require individual assessment, or further direction on who / how to identify this missing information

Category = NA	Study Code	Acronym	AZ Product Name	Prior GPT Decision?	Comments
NA: **No Information** *(No recorded information around milestones that have been reached)* *Model:* **Opt-in**	D8532C00001	SERENA-4	camizestrant	NA	
	D8534C00001	SERENA-6	camizestrant	NA	
	D516KC00001	TROPION-Lung15	Datroway	NA	*[Previous feedback]* - Deprioritized, as co-owned by Daiichi
	D7630C00001	TROPION-Breast05	Datroway	NA	*[Previous feedback]* - Deprioritized, as co-owned by Daiichi
	D7632C00001	TROPION-Lung10	Datroway	NA	*[Previous feedback]* - Deprioritized, as co-owned by Daiichi
	D926NC00001	AVANZAR	Datroway	NA	*[Previous feedback]* - Deprioritized, as co-owned by Daiichi
	D926PC00001	TROPION-Breast02	Datroway	NA	*[Previous feedback]* - Deprioritized, as co-owned by Daiichi
	D926QC00001	TROPION-Breast04	Datroway	NA	*[Previous feedback]* - Deprioritized, as co-owned by Daiichi
	D926TC00001	TROPION Lung12	Datroway	NA	*[Previous feedback]* - Deprioritized, as co-owned by Daiichi
	D781DC00001	DESTINYEndometrial01	Enhertu	NA	*[Previous feedback]* - Deprioritized, as co-owned by Daiichi
	D9675C00001	DESTINY-Lung04	Enhertu	Approved – BMN	*[Previous feedback]* - Deprioritized, as co-owned by Daiichi
	D967UC00001	DESTINY-Breast09	Enhertu	NA	*[Previous feedback]* - Deprioritized, as co-owned by Daiichi
	D9106C00001	AEGEAN	Imfinzi	Rejected – ctDNA	*[Previous feedback]* - Pending Regulatory Review - Study rejected as still under regulatory review stage
	D933GC00001	EMERALD-1	Imfinzi	NA	
	D5164C00001	ADAURA	Tagrisso	Approved - ctDNA	

15

Opt-in Approval: Other Exclusion Criteria

10

Studies below are in the ctDNA priority list – however for a variety of reasons these have either already been rejected, or have other reasons why approval has been difficult to achieve based on study types, etc

Category = NA	Study Code	Acronym	AZ Product Name	Prior GPT Decision?	Comments
NA: **Other Exclusion Criteria** *(Studies are either non-AZ sponsored or have a restriction preventing sharing)* *Model:* **Opt-in**	D3610C00005	FAKTION	AZD5363	Rejected – ctDNA	*[Previous feedback]* – No access possible as ESR study
	D3612C00003	PAKT	AZD5363	Rejected – ctDNA	*[Previous feedback]* – No access possible as ESR study
	D3612C00002	PROCAID	AZD5363	Rejected – ctDNA	*[Previous feedback]* – No access possible as ESR study
	D926CC00001	DS-1062	DS-1062	NA	*[Previous feedback]* - Deprioritized, as co-owned by Daiichi
	D5660C00004	SCORES	AZD9150	Unnecessary	*[Previous feedback]* – Study prohibited based on legal status
	D9268C00001	TROPION-Breast01	DS-1062	NA	*[Previous feedback]* - Deprioritized, as co-owned by Daiichi
	D967MC00001	DESTINY-PanTumor01	DS-8201	NA	*[Previous feedback]* - Deprioritized, as co-owned by Daiichi
	D4191C00005	BR.31 ADJUVANT	DURVALUMAB	Rejected – ctDNA	*[Previous feedback]* - Study rejected - ctDNA analyses are still ongoing and were not reviewed by GPT
	D910GC00001	MATTERHORN	DURVALUMAB	NA	*[Previous feedback]* - Apparently not priority - (Natera only)
	D933RC00001	NIAGARA	DURVALUMAB	Rejected – ctDNA	*[Previous feedback]* - Apparently not priority - Potentially RWE, waiting until reg defence in Japan is finalized, ctDNA from Natera and perhaps GRAIL

Subject: Re: Quarterly Proactive Data Access Decision meeting Peder/Rene

Hi All,

Ahead of the upcoming 'Quarterly Approval Meeting' for Q4 - please see below the slides for discussion.

Please let me know if any issues accessing the deck - or any other clarifications needed.

Many thanks,

Henry

When: Monday, November 10, 2025 9:00 AM-10:00 AM.
Where: Microsoft Teams Meeting

Hi Ana and Rene,

Could we please use this slot—ideally the full hour—for a review of the study list related to ctDNA project support?
I've attached the email conversation for reference.

Best regards,
Ann-Charlotte on behalf of Peder Blomgren
