LEGALFLY

PRODUCT ROADMAP

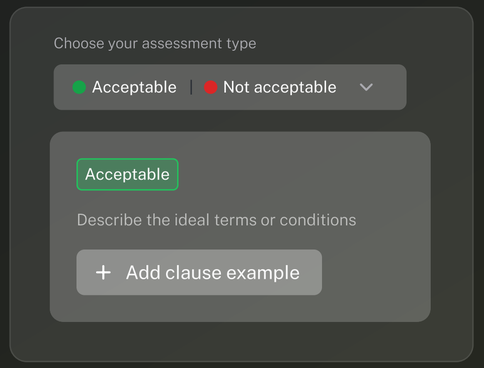
Q4 2025 - Q1 2026

TRANSACTIONAL PROJECTS

What we are building to deliver value the next 6 months

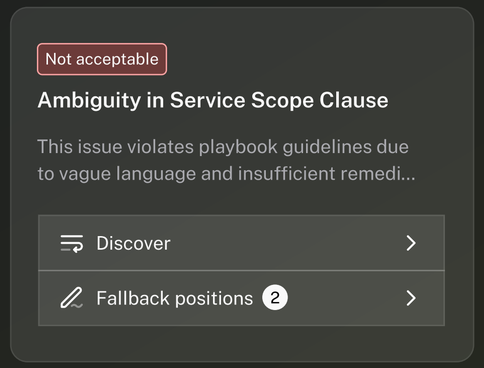
Playbook 2.0

AI-powered builder generates playbooks from existing documents with multiple risk scales, fallback clauses, and team sharing capabilities.



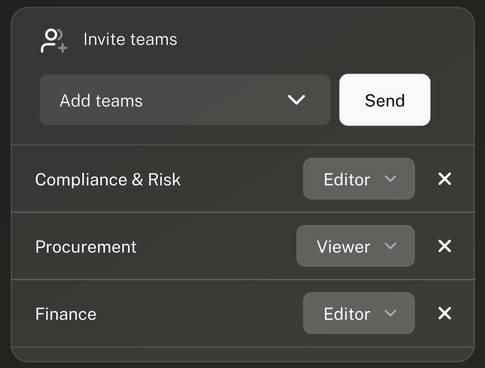
Review 2.0

Redesigned review experience with advanced features and seamless Playbooks 2.0 integration for streamlined contract analysis.



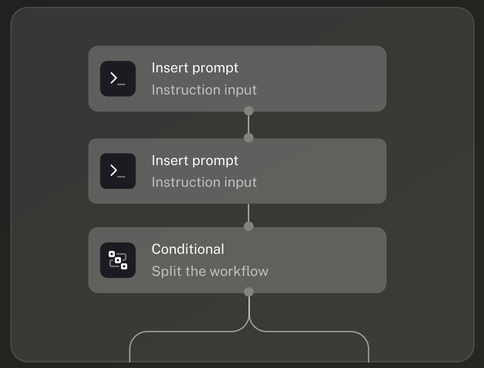
Teams

Team-level structures with enterprise-ready collaboration, permissions, and shared resources for seamless organizational workflows.



Workflows

Chain multiple AI agents to automate complex legal processes with visual building, conditional logic, and reusable templates.

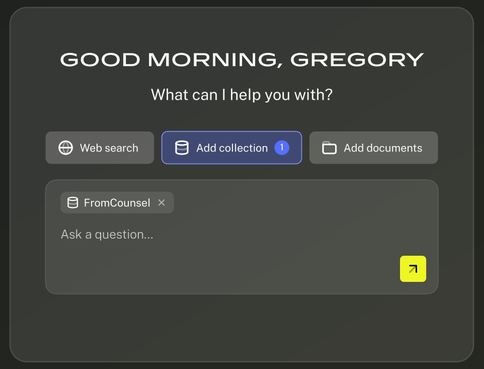


KNOWLEDGE PROJECTS

What we are building to deliver value the next 6 months

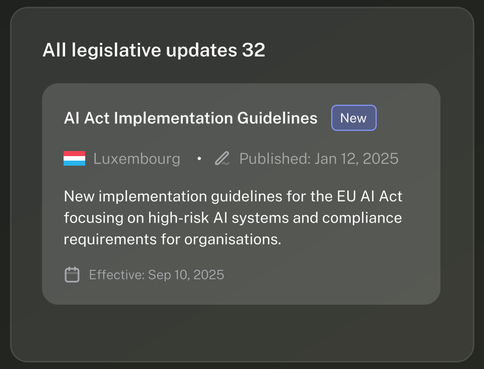
Discovery 2.0

Link multiple knowledge collections to Discovery Agent for smarter, more transparent searches with organized, tagged content.



Legal Radar

Configure personalized feeds of regulations changes and court decisions with custom jurisdiction filters, key dates, and summaries for your legal team.



SharePoint MCP

Search thousands of SharePoint documents natively without importing - seamless access to your entire document library directly from LEGALFLY.

Expanding integrations

Expanding integrations with Microsoft technology and legal publishers.
